.....

Many of the activities we deliver are of an adventurous nature and do come with risk of injury. We are very experienced in what we do and pride ourselves on an unblemished, excellent safety record and only use highly trained staff and adhere to National Governing Body guidelines and licensing. Therefore it is important that the parents of all participants under 18 years old have given their consent. We must assume that you have sought this and have names and emergency contact details with you during the activities. You may find the attached form helpful.

We normally expect full payment with booking, or a 50% deposit with booking and balance paid two weeks before the event.

Declaration:

I here sign that I have read the above and understand that the adventurous activity I have requested, though professionally managed, does come with risk of injury. I also sign that I have sought and do give parental consent.
